More about Barez Pakhsh

Our story

On the one hand, the increasing need for spare parts for passenger cars, and on the other hand, the dependence on extra-provincial supply caused a group of car spare parts market activists in Kerman to establish Barez-pakhsh Company with the aim of supplying and distributing spare parts for passenger cars in Kerman province in 1997. After a short time, Barez-pakhsh Company managed to meet the needs of spare parts stores in all cities of Kerman province by relying on the experiences, reputation, progressive and future-oriented attitude of its founders and expert and committed employees.

In order to continue the forward path, Barez-pakhsh Company developed and expanded the scope of providing services to the southeast region of the country in order to meet the market needs of the neighboring provinces, including Sistan-Baluchistan, Hormozgan, Bushehr, Fars, Yazd and South Khorasan.
